	Projection Size	40-140 inch
	Projection Distance	1.1-3.9 m
	Projection Method	Front / Rear / Front Ceiling / Rear Ceiling

1. 1100 ANSI: The data comes from Wanbo laboratory, the brightness data is the nominal value, and the actual brightness is different in different environments.

2.Obstacle Avoidance: Due to the complexity of the environment, does not guarantee avoiding all obstacles.

3.In order to ensure the accurate use of the intelligent algorithm, please use it when the side cast angle<30°.
